Verse 1

I can see it in your eyes
Sorry didn't mean a thing
I can tell that they were lies
Now in my past is where you stand

Chorus

Fight after fight
On going wars
I see the light, not crying no more
For you to think I'm coming back
Not this time, not this time

Verse 2

I gave you my all
You did me wrong it made me strong
Your chance has come and gone
how'd we come to this?

(Chorus 2x)

And I have hurt myself
Feeding you bullets just to shoot me down
You've won this fight, but lost this love
This final goodbye wont be undone
