Verse 1:

Summer time, will never be the same
I wait for you, but I know its not gonna change
A kiss good night, then you're out of sight
And I'm lost in the light

Chorus:

I can still feel you
I can still hear you
And sometimes I wonder why
I still need you
I still breathe you
But you won't even try
Or give me the time
And I wonder why

Verse 2:

Theres a missing place, In my hand an empty space
I miss your face, but what will it take
To cry out this pain

(Chorus)

Bridge:

Why do I cry?
Why do you lie?
Where did the love go?
Why can't I show?

Ending:

That I can still feel you
That I can still hear you
But my life won't go by
Cause I still need you
Cause I still breathe you
And I don't know why
I can't live my life
Cause your not by my side
