Don't you think I know what you're doing
You're coming through the door with a smile
And all the times I tried to forgive you
Well, that was just another surprise I've been waiting
for to
Come so a brand new life awaits
Yeah, a brand new life
Live a new life, I'm strong like this, life a new life, I can't
forgive, live a new life, I'm strong like this, happy as
can be
As I ever could be

Nothing you can say that will help you
Finally I made up my mind
I found a track away from the circle
Well, that was just another surprise I've been waiting
for to
Come so a brand new life awaits
Yeah, a brand new life

Live a new life, I'm strong like this, life a new life, I can't
forgive, live a new life, I'm strong like this, happy as
can be
As I ever could be

Well, I was down under the ice and I never could get up
Yeah, I was down so fucking deep but I never would
give up

Well, that was just another surprise I've been waiting
for to
Come so a brand new life awaits
Yeah, a brand new life

Live a new life, I'm strong like this, life a new life, I can't
forgive, live a new life, I'm strong like this, happy as
can be
As I ever could be
