I never let off something, leaving something cause I
know
It's a waste of my time
I never listen to the things you say because I know
It's a waste of my time

Cause I don't know nothing and I'm happy as I am
Don't know nothing and I never gave a damn, don't
know nothing, it's an easy way to live
Don't know nothing and I never gonna give anybody
anything

I never understand the way my mind is operating
Am I wasting your time?
You really would be better off if you would pack and
leave me
I am wasting your time

Cause I don't know nothing and I'm happy as I am
Don't know nothing and I never gave a damn, don't
know nothing, it's an easy way to live
Don't know nothing and I never gonna give anybody
anything

Don't know nothing and I'm happy as I am
Don't know nothing and I never gave a damn, don't
know nothing, it's an easy way to live
Don't know nothing and I never gonna give anybody,
anybody, anybody anything
