The kids are out on the streets tonight  
where are their parents?  
Who will teach them left from what is right?  
They all say 'No not I'

and I say  
Poor little children lock them up  
poor little children stoke the fire

YEAH

Lock and load, underneath the sand is a man down  
they shot him dead and gone  
not only is he eight pints or more but a brother lost

What they said wasn't right  
but what you want isn't easy to find  
What you said wasn't right  
but what they want isn't easily defined  
With only intuition  
you and I rely on everybody else

YEAH

Lock and key underneath my chest is a romance  
but I shot it dead  
I wonder what I am and god only knows but I'm not a  
man

What she said wasn't right but what I want isn't easy to  
find  
What I said wasn't right but what she wants isn't easily  
defined  
with only intuition  
You and I rely on everybody else

And all these lessons I learned  
when I was just a child.
