

Alpines "Lights"

Visit "[Lights](#)" on MotoLyrics.com

Lights all around,
In the morning,
And the ghosts make no sound,
They're warning,
Don't slide into the shadows,
What's done,
Is done now,
The wheels are in motion,
Let the demons run...
The hours of journeys,
To find the shield,
Protect these bones,
The battle fields.
But don't slide into the shadows,
What's done,
Is done now,
The wheels are in motion,
Let the demons run...
(Let them run out of town)
(Let them run out of town).
Because this life was a silent movie,

Until I felt the flames,
And soon I'll hear the war cry,
Your fire met my hurricane.
And there'll be
Lights all around,
In the morning,
And the lights,
Make no sound,
They're warning,
Don't slide into the shadows
What's done is done now,
But don't slide into the shadows,
What's done is done now,
The wheels are in motion
Let the demons run
