

Al Shaw "Angel"

Visit "[Angel](#)" on MotoLyrics.com

I need you when your gone
Don't want you when your home
Play it like you are my own
My wish i have been waiting for so long

Chorus

And how can't i , look in your eyes
And forget about all my past cries

Can you see me , can you hear me
You look like an angel now

I miss your laugh , i miss your smile
You occupy my whole mind
I miss your face , i miss my place
Right inside of your embrace

I know you're there , i feel you near
And its not fair , you can't disappear
You gave me love , you gave me hope
You are my light , you are my dawn

Chorus

And how can't i , look in your eyes
And forget about all my past cries

Can you see me , can you hear me
You look like an angel now

bridge

It's not easy , leaving you behind
it's not easy , leaving me to cry

Chorus

And how can't i , look in your eyes
And forget about all my past cries

Can you see me , can you hear me
You look like an angel now
