I never let off something, leaving something 'cause I
know

It's a waste of my time

I never listen to the things you say because I know

It's a waste of my time

'Cause I don't know nothing and I'm happy as I am

Don't know nothing and I never gave a damn

Don't know nothing, it's an easy way to live

Don't know nothing and I never gonna give anybody,
anything

I never understand the way my mind is operating

Am I wasting your time?

You really would be better off if you would pack and
leave me

I am wasting your time

'Cause I don't know nothing and I'm happy as I am

Don't know nothing and I never gave a damn

Don't know nothing, it's an easy way to live

Don't know nothing and I never gonna give anybody,
anything

Don't know nothing and I'm happy as I am

Don't know nothing and I never gave a damn

Don't know nothing, it's an easy way to live

Don't know nothing and I never gonna give anybody,
anybody

Anybody, anything
