Look into the eye of the mesmerizer
Seeking every thought that you try to hide
Breaking you down and you'll end up wiser
Spiteful in every way, spiteful in every way

Your freedom depends upon your silence
Take my advice
Listen and try to understand
To the sound the beautiful sound
The sound the beautiful sound
The sound

Take another chance with the inquisition
Tell another lie and you will get hurt
Taking you down with the wrong ambition
Spiteful in every way, spiteful in every way
