Don't try to walk away  
You can't escape your problems  
Think about the past  
It makes you feel depressed  
Forget about the time When you were free and happy  
Look at me and learn  
Stop acting like you were a fool

Don't try think stop living for tomorrow  
Cut it off, start living for today

Don't try to walk away  
You can't escape your problems  
Think about the past  
It makes you feel depressed  
Forget about the time When you were free and happy  
Look at me and learn  
Stop acting like you were a fool

Don't try think stop living for tomorrow  
Cut it off, start living for today
