Been trying pretty hard to get to the fast track  
That's what they say  
I've been pushing really hard and all went to pieces  
It's no surprise

But I've been turning every switch in my brain  
I've been turning every switch and I can't complain

Hey, my independence dying away  
And my insolence is growing  
Hey, my independence dying away  
And my insolence is

Acting like a fool and no one would tell me  
Took no advice  
I've been taking every step in the wrong direction  
No telling why
