I said hey let me be the first to say
Living with you baby it ain't easy no
Day by day, sticks and stones... may break my bones
But you crept right up behind me stuck a knife inside
me turn it round, turn it round yea
I'm not the only one who hurt you no
I'm not the only one who burns inside
I'm not the only one who cries at night holds a lover
tight
Try s to understand this thing called a blue

Well who knows
What tomorrow brings
Lady luck yes lady luck come on clip my wings (I might
have missed a word in this line)
Heaven can't wait, I'm not quiet ready yet
But it really doesn't matter no cuz
My fate has been set

I'm not the only one who hurt you no
I'm not the only one who burns inside
I'm not the only one who cries at night holds a lover
tight
Trys to understand this thing called a blue

Why do the heavens open umm yea
Every time, that I feel fine
Maybe it's just natures way of saying that it's
Time...
Time...

I'm not the only one who hurt you no
I'm not the only one who burns inside
I'm not the only one who cries at night holds a lover
tight
Try s to understand this thing called a blue
