Thank you for callin' me faker
It's my nick name since
Now baby bye 'till die

I will livin' my life survive
And I don't even need you for that
What I want is forget ya!

Remember what you told me last ight
That's right...
What you said was can't be without ya!
Forgive me you told me
Honestly you told me
Just you want me back right now
But I can't can't!

I will livin' my life survive
And I don't even need you for that
What I want is forget ya!
What you think about me aha!
I guess I already know that
Want you for what you got, right?

You get outta my hair
Get outta my face
Get outta my world
Get outta my words
Get outta my dreams
Get outta my breath
Get outta my feel
All of my fears

What you think about me aha!
I guess I already know that
Want you for what you got, right?

Thank you for callin' me faker
I guess ain't really de deserve that
Baby bye since now 'till die
