All this time I've been searching for someone to  
stand outside the line folding right and reason  
All this time you've been searching for some way to  
break and rewind

Back in time were we used to be the ones who were  
making all the lines breaking all the reasons  
All the while you've been breaking in front of me,  
fading further

Away, Away, Away, Away,  
Away, Away, Away, Away, but now I see you,

I have seen you work your way out of this.  
Like the symptoms you're hiding out  
Oh but I can see you.

I have seen you work your way out of this  
(Time and Space)  
Silently  
(I can see)  
You're fading  
Like the symptoms you're hiding out oh  
But I can see you're fading  
Away, Away, Away, Away,  
Away, Away, Away, Away, but I can see you now  
Now  
I see you die.
