

And The Kid "Old"

I saw my shadow in the fog
As I passed the railroad tracks
I bought a bottle of wine
To cheer up my face, to make it white

Of I go now
To have some fun
To be with someone

When's the next family wedding
I wanna dance and eat
I wanna mock them
But not to their faces

Hey mister, congratulations
You gave her black eyes 47 times
But the deutschmarks
The deutschmarks made it up

The bitch had it coming
You must say to yourself
Well, you got a nice car
It goes really fast
We love you
We smile

I'm happy, I'm ready
To be a pig in a tie
Take me, life

Hey you, you got holes in your shoes
Where did you find all this mud
We don't want you anymore
We got old, forgive us
