I'm looking for a girl like you
Someone to make my dreams come true (x2)

Supermodel walk
Clever when you talk
Got my full attention
And girl you ain't trying at all
I'm not tryna bug u like every other guy
But something pulls me in when I'm looking in your eyes
To be your man baby girl, I just wanna try
Hold you in my arms until the sunrise
Beautiful phenomenal intelligent, impeccable
And I just want you to know, come get with me you'll have it all

I'm looking for the girl that makes you wanna stare
Caramel complexion with the long pretty hair
I'm wondering to myself is that her over there
I-I-I See Her, La-La-La Veo (x2)

Girl I'm being real
So tell me how you feel
This could be forever
Come with me and have no fear
I just really wanna get to know ya
Everything you know that Imma show ya
I ain't in a rush for love but girl lets go 'fore the night is over
Once in a lifetime

So take a chance with me
