

No Innocent Victim "Calm Before The Storm"

Visit "[Calm Before The Storm](#)" on MotoLyrics.com

His cold very well be
The calm before the storm
That brings disruption to our lives
And hardships seen like none before
So be prepared

This could be
The calm before the storm
This could be
The calm before the storm

Always thinking
That tomorrow's like today
Never knowing what the future holds
But never thinking much will change

This could be
The calm before the storm
This could be
The calm before the storm

Don't touch me, be good
Don't get so relaxed
That your spirit gets lazy and weak
There are still plenty of battles to be won

This could be
The calm before the storm
This could be
The calm before the storm

When they all cry peace
You know destruction comes
You've seen terror around the world
Never thinking it could hit home

This could be
The calm before the storm
This could be
The calm before devastation
