

## **No Innocent Victim "My Beliefs"**

Visit "[My Beliefs](#)" on MotoLyrics.com

Some say that we should not be part of the hardcore scene  
Whether you think what we say is right or wrong  
This is where we belong  
Never giving into pressure from the outside  
Staying true to our convictions  
Having been tested and tried  
Hardcore family of equality?  
No on viewed higher or less?  
"doesn't matter who you are"  
Unless it's Christ that I profess  
I know you have stereotypes  
Carved into your brain  
Push them aside though we have differences  
We have so much the same  
I thought hardcore was about  
Standing up for what you believe in  
I thought hardcore was about  
Standing up for what you believe in  
'cause I would die tonight for my beliefs
