

No Innocent Victim "Will To Live"

Visit "[Will To Live](#)" on MotoLyrics.com

Nightmares became a reality
I've suffered and died
Losing my own will to live
Stripped of all my pride

Didn't want to ever know
The many things
I could have learned
No other way

Wishing to go back
Wishing to go back
Wishing to go back
Wishing to go back
To days gone by

A new hope inside me
A light at the end of pain
Wanting to go back more than anything
But with my heart unchanged

Waking each day to realize
That it's still the truth
My focus now faithful to the end
To one day be renewed

Wanting to go back more than anything
But with my heart unchanged
