I try to fight it
Try to survive it
Not gonna back down now
Don't wanna be here
Don't wanna be there
Just wanna disappear now - now - now

Hook:

The sun is blinding me
But yet enlightening me
Things are heating up right now - now - now

Don't know where I should go.
It's hot but feels so cold
It's all coming to me now

Chorus:

Don't even think about it
Tonight's a different story
the futures on the way
so live it day by day

When everything is different
Don't think it, just go do it
The time is here and now, now
L-Live your life now

Verse:

I see you loud and clear
i'm trying not to stair
you're beauties stronger then me
tmy weakness overcomes me
but that won't stop me now
just you and me right now

For the possibilities
Full charge on my battery
Sparks are flying away in the night

Hook:

I think i'm gonna lose it
No limits lets go do it
make no regrets tonight
the best time of our lives

Chorus:

Don't even think about it
Tonight's a different story
the futures far away
so live it day by day

When everything is different
Don't think it, just go do it
The time is here and now, now
L-Live your life now

MARVIN:

New to the game not gonna change me
fight for what you love, mercenary
That's right I only say the truth
Like I have the power from the fountain of youth
i Hop on this mic i rap automatic
all the people think i be making crazy magic
but i can't stop what i do best
All the good things in life come with the rest

Hey let me know watch you wanna do girl
let's go to the beach and catch some new pearl
think about spending some time with you
this is not me you'll get the view
so i kissed her then she earned respect
she tell me no have no pain have no stress
Tonight we got no plan no game
so we living our life in the fast lane

Chorus:

Don't even think about it
Tonight's a different story
the futures far away
so live it day by day

Everything's always different
Don't think it, just go do it
The time is here now, now
Live your life now (x5)

The night is getting crazy

Nobodies gonna save me
I'll forget it a now
and i'll live it right now
