Stay with me, till the early morn  
Your gentle touch, makes my cold heart warm  
We'll face the world, with a loaded gun  
I'll fight for you, my only one  
I'm trained to kill, but I would die for you  
You know I will, I will fight for you  
If you say, you'll be mine.  
We could stay, till first light  
Defy the odds, you know we can  
Come on girl, come take my hand  
Be bold and brave, when the daylight comes  
We'll face the world, with a loaded gun  
I'm trained to kill, but I would die for you  
You know I will, I will fight for you  
If you say, you'll be mine.  
We could stay, till first light  
So, stay with me  
So, stay with me  
So, stay with me  
Stay with me, till first light
