Wake up
Let's begin time to start
But I've got something in my heart
Telling me
I should stay I shouldn't wanna walk away
but here I go yet again
I'll walk this path until the end

Alone
On the road
In my mind
It's just a matter of time
Before I can expect
To come out of this ahead
Take the lead
win the prize
I just wanna feel alive

Now
I see the light
I see the light
with my own eyes
I was blind
I was blind for way too long
I was out
I was out of my mind .

Woah oh oh Out of my mind
Woah ooh ooh... Out of my mind

So
Now what is this
Gonna be
Something I can
Never see
Until now
I have thought
Another battle to be fought
with the use
I am fine
Just sit back and enjoy the ride

No it's not true
There's no curse
I'm not doomed to stay on first
I will run
And I might fall
But I'm not giving up at all
If it's love
you can't deny
I'm not gonna step aside

I see the light
I see the light
with my own eyes
I was blind
I was blind for way too long
I was out
I was out of my mind .

Woah oh oh Out of my mind
Woah ooh ooh... Out of my mind

Even though
I got a lot to say
I try
to do it in my own way
For
everything that I will find
I'll slowly get back
some piece of mind

Woah oh oh Out of my mind
Woah ooh ooh... Out of my mind
Woah oh oh Out of my mind
Woah ooh ooh... Out of my mind
