"Bird On The Buffalo"

So kind hits the edges of the chain in the wind
The watch tower man turned and whispered me some
things
He said, "we don't sleep, stuck in a dream"
Shot my baby with an arrow
In the wind

Cut, bent and scarred
He got to get
Lost in love in a broke down car
Dished on the weather

Like the bird on a buffalo
Like the bird on a buffalo

So kind hits the edges of the change in the wind
The light house man turned and whispered me some
things
"we don't sleep, awake in the dream"
Shot my baby with an arrow
In the wind

Us, you, me and them
We got together
Got together and we did our thing
Dished on the weather

Like the bird on the buffalo
Like the bird on the buffalo

Like the bird on the buffalo
Like the bird on the buffalo
Like the bird on the buffalo
Like the bird on the buffalo
Like the bird on
Like the bird on the buffalo
