I hate you sometimes  
But I love to be your queen  
You are my muse  
Got me smoking nicotine

I watch you sometimes  
From oh so far away  
But I can't forget you  
Or anything you said

You sang that song in my ear  
And it tickled those tiny hairs

Love is a puzzle  
Some pieces they adjoin  
It's not like that with us  
But I keep flipping that coin

I watch you sometimes  
From oh so far away  
But I can't forget you  
Or anything you say

You sang that song in my ear  
And it tickled those tiny hairs
