Tick tock goes the clock on the wall
Time it out just to make the call
Throw it out to the left, in to the right
Let it loose but try to keep it tight

Lippin drippin, stoppin droppin
Floatin like a Mary Poppins
Hours sour, seasoned reason
Take a lemon, little squeezin
Stick it lick it, to a ticket
Take a chip and then I dip it
[stop]

Chorus
Pull the petals and watch them fall
DonÂ't wait for me, donÂ't wait for me
See the leaves 'll turn spring to fall and
DonÂ't wait for me, donÂ't wait for me
Cuz youÂ're not the only one, two, three, four

Take a breath, blow the breeze to the west

Take a second, reckon get a little load off your chest
Chills goin up your spine, head to your toes
She always knows where the cold wind blows

Lickin flickin, nicey icy
Feelin just a little spicy
Bust a, lust a girly girly
Let it off a bit too earlyÃ¢â€Folly Molly, really sorry
Sleepin with your sister Holly

Chorus

Pull the petals and watch them fall
DonÂ't wait for me, donÂ't wait for me
See the leaves 'll turn spring to fall and
DonÂ't wait for me, donÂ't wait for me
Cuz youÂ're not the only one
