There your brilliant mind was stunning me again again
alien and alive was every word you said you said
I went down to the edge of the river
I went up to the foot of the tower
What a sign to see him in love
what a deed that I didn't do
what a lung it glows in the dark
what a skin no one sees through
Higher than my arms two birds are fighting in the sky
I am the king of dogs my money dies in a royal lie
I went down to the edge of the river
I went up to the foot of the tower
What a sign to see him in love
what a deed that I didn't do
what a lung it glows in the dark
what a skin no one sees through
This is for the boy on the magic horse who owns my
heart
he has got golden hair and wears a robe of snow
riding over clouds his face a lame his tongue a sword
I have given him a name it means Anna's Lord
