"Queen Of Sound"

Visit "[Queen Of Sound](#)" on MotoLyrics.com

Out of the dawn I made a blueprint
drawing it down from among the stars
I gave permission of the floodlight
but I wasn't really the one in charge
When the air cleared I saw it moving
moving with massive grace and speed
I was alone in some extraordinary state of mind
and then it went off
Skin like a cloud but touches me
like the sun like the son of God
I am inside and out
She's the lady of the millions
she's the queen of sound
she's the laser from the sky cutting through me
I took the paper they had made him
reading out every secret thought
that trouble is always out there waiting
falling is always possible
Skin like a cloud but touches me
like the sun like the son of God
I am inside and out
She's the lady of the millions
she's the queen of sound
she's the laser from the sky cutting through me
