I wanna go to the beach, dig our toes in the sand,
Wanna roll through the streets like they know who i am
Oh oh, i think i know where i can
I wanna show you everything you can eat in Japan, I
wanna be on MTV and get to chill with the bands, and
oh oh, i think i know where we can

Theres a place that everybody knows, and everybody
wants to go
I wanna call it my own

You can go, across the whole globe,
there's no other place youll find
that's quite as nice
It's home
It's warm when it's cold
the girls are so beautiful
youll fall in love
youll fall in love

You might run into celebrities in the street,
catch a hollywood party be on TMZ
oh oh oh oh oh oh it'd be so neat
Let's cruise down Highway 1
and bump that new Chris Brown song
we'll go to the boardwalk and meet some honies oh
theyll love me so

Theres a place that everybody knows, and everybody
wants to go
I wanna call it my own

You can go, across the whole globe,
there's no other place youll find
that's quite as nice
It's home
It's warm when it's cold
the girls are so beautiful
youll fall in love
youll fall in love
