All the white sparkle's in the sky
I hope our love can reach that high
You make me feel like i'm gon' die
Don't make me have to rewrite

I want your attention, i gotta' have it
I want your affection , i really want it
Don't cause no affliction, please don't
Your my drug addiction, oh yes baby

Don't turn me down, my life will be turned upside down
Let have some real loving in the world
True loving, let's have an positive effect
Feel like i cannot breath, gas and air, yes please

Ohhh Baby...
I want your attention, i gotta' have it
I want your affection , i really want it
Don't cause no affliction, please don't
Your my drug addiction, oh yes baby

This isn't just a figure of speech
This is truly how my heart feels
This is real love and you have to believe
If this is the last thing i do to make me and you

Yeah Baby...
I want your attention, i gotta' have it
I want your affection , i really want it
Don't cause no affliction, please don't
Your my drug addiction, oh yes baby

Let's be beauty and the beast,
Frog and the princess
Shrek and fiona... True love story end.
