

Noise Ratchet "The End"

Visit "[The End](#)" on MotoLyrics.com

Our lives are vacant
In us again
The time it's taking we go
On and on and on
To change what's wrong into real
Our suffered scars are healed.

We can get there
We can go all the way tonight
The journey's long
But our hearts are right.

Come follow this
Come follow this, follow

We've come a long way,
He made it work.
Even though we went on
On and on and on

Our souls are here
And the end is near
We can get there
We can go
