Maybelline Queens with plastic faces.
Modeling their hips and their lips.
Bleed yourselves again
'cause your beauty is only skin deep.
Following your cold surroundings.

It's all you have
Holding on
Holding on
To nothing.
A hole you have. In your heart
It needs heart, it needs something

Wrapped up in your vanity.

Put on your mask every morning
Scrape it off at the end of a long, long day

Maybelline Queens with plastic faces.
Modeling their hips and their lips.

It's all you have
Holding on
Holding on
To nothing.
A hole you have. In your heart
It needs heart, it needs something
