

No Justice "Breathe"

Visit "[Breathe](#)" on MotoLyrics.com

Well I could do without almost everything
Just to give you those little things you need
And I could bring myself to do anything, anything

[Chorus:]

To keep you warm to keep you safe to dry your eyes I
won't hesitate

There's no other way that I can make you see
I can't live without you and me baby can't you see
You're the air I breathe, you're the air I breathe

I look into your eyes you're looking back
The world revealed to me in such a simple act
I know our love's so strong I could do anything,
anything

[Chorus:]

To keep you warm to keep you safe to dry your eyes I
won't hesitate

There's no other way that I can make you see
I can't live without you and me baby can't you see
You're the air I breathe, you're the air I breathe

When I lose my way you come and take my hand
And all the words you say takes the pain away
And when you need me together we will see
I'm standing by the promise that I keep

[Chorus:]

To keep you warm to keep you safe to dry your eyes I
won't hesitate

There's no other way that I can make you see
I can't live without you and me baby can't you see
You're the air I breathe, you're the air I breathe
