Hallelujah it's the golden age
I finally see it through the sweltering haze
Shipwrecked far too long
Felt it coming since the day I was born

I see a whole, whole lotta love coming up the river

Have mercy on me this time
Take it easy on this heart of mine
Good Lord, I've been misunderstood
Walked through that fire just as long as I could

I see a whole, whole lotta love coming up the river
I see a whole, whole lotta love coming up the river

Hip shake she was right on time
Drip sweat nearly lost my mind
Sugar, sugar get me out of this place
Honey, honey you're my saving grace

I see a whole, whole lotta love coming up the river
I see a whole, whole lotta love coming up the river
I see a whole, whole lotta love coming up the river
I see a whole, whole lotta love coming up the river
Coming up the river
Coming up the river
Coming up the river
Coming up the river
