I know a place where we can hide away
I know a place where we can always stay the same
For all these things I don't care for

The world is burning but it's cold outside
The world keeps turning but we stay and hide away
For all these things I don't care for
For all these things I don't care for

Where do they go? When the sun rises

I wanna take you to the morning light
I wanna take your hand and walk with you tonight
I wanna take you to the rainbows end
Where we can dance around with all our friends, And
then

Where do they go? When the sun rises
See them walk away
Through the strangeness
They escape!

I wanna take you to the morning light
I wanna take your hand and walk with you tonight
I wanna take you to the rainbows end
Where we can dance around with all our friends
I wanna take you to the other side
I wanna take your heart and hold it tight, tonight
I wanna take you to the rainbows end
Where we can dance around with all our friends and
then!
