The bitter taste of death
Attacks your tongue
You take a breathe
Here comes your demise

These bridges are burning
And statues are falling
All color fades away
(Nothing left here but bodies and ashes)
But don't you give up just yet
The strength that you will find
Was inside the whole time
(Inside of you)

Fear arrives in your eyes
You take step to the side
And gaze upon the scene
A shadow of what used to be
As fear arrives in your eyes
You take step back to the side
And gaze upon the scene
A shadow of what used to be

Nothing left!

These bridges are burning
And statues are falling
All color fades away
(Nothing left here but bodies and ashes)
But don't you give up just yet
The strength that you will find
Was inside the whole time
(Inside of you)
These bridges are burning
And statues are falling
All color fades away
But don't you give up just yet
The strength that you will find
Was inside the whole time

Awwwww yeaahhhhh!

The strength was right inside the whole time
(We're gonna make it out alive this time)
The strength was right inside the whole time
(We're gonna make it out alive this time)
The strength was right inside the whole time
(We're gonna make it out alive this time)
The strength was right inside the whole time
(We're gonna make it out alive (2x))

Take a look around (3x)
