[Strophe]

You look like someone that I've seen  
I think it was on a moviescreen, baby, baby  
Oh, Oh maybe a magazine  
I swear it's like you just smoggered on my dreams, baby, baby

[Bridge]

You was fallin from the sky, sky, sky  
Play that simple and fly, fly, fly  
You know you got me on that high, high, high  
I think I fell in love by ???

[Chorus]

Starlight, you got that starlight (2x)  
Starlight,light, light, light,....Starlight

[Strophe]

I see you with paparazzi, you're famous  
the beauty you have is oh so dangerous  
you must be from a different galaxy  
you know you fly finding gravity

[Bridge]

You was fallin from the sky, sky, sky  
Play that simple and fly, fly, fly  
You know you got me on that high, high, high  
I think I fell in love by ???

[Chorus] x2

Starlight, you got that starlight (2x)  
Starlight,light, light, light,....Starlight
