"All I See"

All I see is a vision of me
Standing alone, in a world that's gone wrong
All I see is a vision of me,
Paying for something (that I've done wrong)

No one gets ahead
Gets ahead around here and
You'll end up livin'
Live in a paranoid fear-man
You'd kill you brother
Brother just to get ahead
Get a nine to five
Live beyond your means til your dead

Try to rise above what's pullin' you down
The lost and found in a world goin' round
The people will move to a dedicated sound
Check - The best of us can shake the ground
No one can notice the lack of reality
People accept that it's only supposed to be
Walk on the edge and enjoy your fatality
Well I can be near but don't get too close to me
