Oh why can't you just see that,
We Just Want to be free
Free to live our lives in peace and harmony
You try to take that away
Forever from this day
Never the same will be
Coz you don't want to hassle me

Behold The Man

Oh why can't you just see that
We just want to be free
You better not mess around
Coz you'll make me an enemy
No peace no love
This isn't happening
These things are not enough
You better not hassle me

Behold the Man
