Hey-what is it? What is it?
What is it to me?
If a million people starve
And another million bleed
Got a problem, got a problem
Don't know what I need
Can I handle to be trapped
Can I stand it to be freed?

What we do - What we do now, will seal our fate
What we choose - choose to be lesser, choose to be
great
If we loose - raise our daughters better, save our sons
from hate
What we do - choose to be lesser, choose to be great

When will you-when will you
Know yourself - listen to me?
What do I talk about
Is it something you can't see?
Your can't hear and you don't see me
And you wonder why I get angry
Find my peace internally
Send my message cleverly

What we do - What we do now, will seal our fate
What we choose - choose to be lesser, choose to be
great
If we loose - raise our daughters better, save our sons
from hate
What we do - choose to be lesser, choose to be great
Send my message cleverly
