Hey won't you take me to my dream
I only see the harder way
Say - How do we come to see
The only things we have to say
You wanna make me weary - but I love to play
We gotta find some fun in the world

Nobody cares - in this life of despair
Human is falling - human is lost
Nobody cares - in this life of despair
Human is falling - human is lost

When I open a tin of worms
I keep it next to a jar of flies
I'm waitin' for my plane to return
You think it's stupid it's no surprise
To some it don't mean nothin'
But they can go to hell
I'm tryin' to fix a hole in the sky
You think I'm crazy and I can tell
