"New Era"

Visit "[New Era](#)" on MotoLyrics.com

My Fever is the flavour of a new era
When the world can see and hear much clearer
This song got my feeling on a hook now
It lifts me up and it's can't bring you down

There is a new time comin and
Ill get their first coz I'm running man
Ill always know coz Ive seen
The places I'm goin and where I've been
There's no time for us to do the runaround
This time the sjy is really coming down
Its never the end and you'll see
There's nothing you're doin that can affect me
In this world there's a reason for everything
There's a lesson to learn from many things
It's always a struggle to be free
I keep it real, but that's just me
Got to show, got to know, got to give it a go
Coz you know that I never live my life slow
As you grow to the powerful force of my flow
Yeah! Yeah! Yeah! Yeah! Yeah!

In the future with our minds eye smashin down walls
To what fate from the mothership our species falls
There's only one other way to keep it alive
If there's something in our nature that makes us
survive

Nguntu nganinya wangkanyi hey hey hey!
