...the wind blows through my hair  
the sun hasn't risen above this field yet  
the eye of the moon stares at my face  
the fear left me long ago  
the army is sleeping:  
I'm the only one  
standing on the hill  
staring at the darkness  
only the night shadows  
are sliding in the morning fog  
trying to find lonely nooks  
so as to die from the sunrise  
the trees whisper each other  
the dreams of prophecy  
and their low voices hardly  
touch my ears  
but I won't know all the picture  
of the coming total war  
however, the feeling inside me  
tells me about my victory  
the spirits are on my side,  
they are embracing me  
with their arms  
cold like ice  
oh, great ancient ones  
I'm calling you now  
it's time for revenge  
I'm opening gates for you  
I'm holding thousand swords  
in my mighty hands  
I'm looking with eyes of millions  
into deepest past!  
I have the keys to all the gates of knowledges  
I've gathered them all  
in the name of revenge, which I believe  
here is your expiation!  
the sun has shown  
it's insidious crown  
and my eyes see  
the night landscape dying  
but I'm standing here,  
I'm child of the moon

the angels are weeping  
it's time to wake the army...
