Sail away  
Sail away to nowhere  
Will anyone care when my ship comes in  
Sail away  
Sail away to nowhere  
Will anyone care when my ship comes in

Where can you go  
What do you see  
Nowhere you know  
All to be free  
I made a hard decision to leave  
It's no holiday but it's just to leave  
Save me from my sailing days  
Make me see my wicked ways

Sail away  
Sail away to nowhere  
Will anyone care when my ship comes in  
Sail away  
Sail away to nowhere  
Will anyone care when my ship comes in

All aboard, we're floating away  
Motor chugging in the ocean spray  
She's taking on water, but I can't swim  
Another mess somebody put me in  
This is not what I had in mind  
Well how could I have been so blind
