You try to tell me

It's not the end of the world

Nuclear anthrax ridden pedigree

Solar radiation ammunition refugee

Small pox ammonia vapour factory

Fuel air forced heavy metal category

Chemical propulsion hollow point ground

Toxic depleted uranium round

Archaeological shrapnel mound

Acrid leukemia screeching sound

You try to tell me

It's not the end of the world baby

I've got that feeling that

It's going all wrong lately

Why should I ever want to go to Woomera?

To get away from a world

That wasn't good enough

Discharge abdominal infection

Military government insurrection

Spy satellite information detection

Donor lung biological rejection

Terminal velocity critical mass

War for peace and life for cash

Definitive history burn and slash

Buildings fall and it starts with a rash

You Try'd to tell me that there's nothing in the world,
I have the feeling that it's going all wrong lately,
Why would i ever want to go to Woomera,
Too get away from a world that wasn't good enough

Longitudinal trajectory plan

Mass pandemic hemorrhagic Japan

No trace of live form tri quater scan

Mutant modified lifeless man

Born from designer drug technology

Dead cell tissue amputate at the knee

Will clean up as best as we can

How will we be in another century?
