You won't believe this I sold your soul today
Hours between us will never fade away
As sad as it seems, it's like something in dreams
Fuck it im high as the winter makes me so sad
Bitter and cold now my thoughts get sick and make me
mad
Hello, Hello Guantanamo bay, Farewell, so long,
goodbye U.S.A

Chours:
Farewell American
Farewell American Primitive,
Native American Immigrant

I'm here in spirit so don't hesitate to write
Bitter and cold now my thoughts make sick at night
If that isn't me, North Korea is me

Chours:
Farewell American
Farewell American Primitive,
Native American Immigrant
Background: Off to Zimbabwe, no got to stay, no got to
stay, (2x)

You won't believe this I sold your soul today
Hours between us will never fade away
As sad as it seems, it's like something in dreams

Chours:
Farewell American
Farewell American Immigrant
Native American Primitive,
Farewell American Primitive
Native American Primitive
