Gotta find my destination, GPS on rotation, baby
Try and take a vacation at night
I went eastbound on the highway, highway of love,
highway of love
Meet you down at the bright spot
24 on the dot you know, baby
Tell me is the right spot or not
Friday night at the chateau marmont, let's go

Yeah, come on, live it up all night long
Yeah, live it up, live it up, live it up, live it up all night
long

It's far too late to make this okay
I'm write a song when I don't know what to say
First line is the hardest for me
Everything means the same in reverse, now let's go

Yeah, live it up now, baby, let's live it up, live it up all
night long
Yeah, live it up, live it up, live it up, live it up all night
long

Dubstep or duck stab, baby, save your pretties for me
baby
Cosmonot living up to my dreams, take a walk in my
hollow deck, baby

Live it up, live it up, live it up, live it up all night long
Live it up, live it up, live it up, live it up, live it up, live it
up
