They only came and talked me
When their fear is in need
To late to believe
Comes down to you and me
Ignorance versus me
To late to believe

I never tried to be like you
A dirty mind from the start
Forever is just a word to me
Now that you are in my mind
Waiting for you time
Congratulations you have won

Elly Kedward here I am
Elly Kedward here I am
Elly Kedward here I am

All of the fear I believe
All the trees that frighten me
Bury your stones in me
Human nature I exceed
All of your pitty fear
To late to believe

I never tried to be like you
A dirty mind from the start
Forever is just a word to me
Now that you are in my mind
Waiting for you time
Congratulations you have won
