Well, we settled in and all lived hand to mouth  
Pooled our guns and beat the boys down south  
Felt so proud, we got our own country  
We got it on sale from a bloody company

[Chorus]

Canada is Pissed  
We'll fade and won't be missed  
Our country got so poor  
When the people are so rich

Well, we bribed the west and the north was in the bag  
Can't see why we all don't love our flag  
Varies immigrants and the native plea  
To the anglos and the francos we're one big minority  
[Chorus]

We're pissed, we're tanked, we're smashed on all the  
glut  
We've chug-a-lugged ourselves into a rut  
We got lots and sell it oh, so cheaply  
Then buy it back and pay it through the teeth

[Chorus]
