~~~~~

We are living in the, in the dark ages  
Haven't seen some daylight in what seems ages  
All the information is locked far beyond  
Locked in circuits and bathed in silicon  
And we're fast asleep with our dreams seething  
In and though all is still we are still breathing  
But it's him in the dark, he makes me null and void  
But it's him in the dark, I think I'm paranoid  
A world of half-truths, what goes unspoken  
Lines of communication are stripped and broken  
And the dark is cold with hands freezing  
But this deep-freeze seems strangely pleasing  
And the powr-trippers receive facelifts  
And the button-pushers all work night shifts  
And the misdemeanors seem so ghastly  
While the media punch is so lasting  
And the Eastern comrades find out much too late  
And free men are free to subjugate  
Under megashadow, under nine to five  
Still it's self-extinction that keeps us alive  
We are living in the, in the dark ages  
Haven't seen some daylight in what seems ages  
All the information is locked far beyond  
Locked in circuits and bathed in silicon  
I don't know  
Go to sleep  
We are in the dark ages
