=====

Now if  
You  
Feel  
Like nothing  
Nothing and nobody  
And if  
You  
See  
Nothing  
Nothing and nobody  
Forget your life  
It's nothing  
Now if  
You  
Cringe and shrink inside  
But say nothing  
Nothing to nobody  
And if  
You  
Cry  
But say nothing  
Nothing to nobody  
Forget your life  
It's nothing  
You're hiding  
Why are you hiding  
That's nothing  
You're scared  
What are you scared of  
That's nothing  
Forget your life  
It's nothing  
Forget it
